

'The Family Legacy' - BACK BY POPULAR DEMAND!

Join us at a special screening of 'THE FAMILY LEGACY' which will include an expert panel and a lively question and answer session.

Tuesday, 7th February 2012 @ 6PM at the Africa Centre

The Sickle Cell Society and NHS Sickle Cell and Thalassaemia Screening Programme in collaboration with the Africa Centre and 100 Black Men of London present a special screening of '**The Family Legacy**' an educational and entertaining British – Nigerian DVD drama which raises awareness of sickle cell disease, testing and associated beliefs. The NHS will launch its new leaflet '**Tests for Dads**' and some discussion will focus on men's engagement with screening, their awareness of sickle cell disease and communication barriers that might exist. Like its predecessor this event promises to be every bit as interesting, so don't miss it!

6:00pm Doors open

6:30 Welcome & introductions

6:35 Family Legacy film screening (25 min)

7:00 -8.00 Panel discussion + Q&A + leaflet launch
