Give children with Sickle Cell Disorder a well deserved break

The Sickle Cell Society provides a one week holiday for up to 30 children aged between 7 and 17 with sickle cell disease to improve their quality of life.

We need to raise **£25,000** by 31st March 2015 to give these children the best summer holiday.

Michelle age 9 "I had a wonderful time meeting other children in the same situation like me, we shared our experiences together which boosted my confidence".

Bolaji age 12 "I learnt that I am not the only one that has sickle cell. It's good to know that I'm not alone and I can hang around with people who understand me".

Please donate today,

text CHFD48 £3 to 70070 or donate online
