

Medical Adviser to Sickle Cell Society

Post: Medical Adviser

Accountable to: Chief Executive

Hours: This role is flexible and requires occasional input to the SCS

Salary: Unpaid

About the Sickle Cell Society:

The Sickle Cell Society (SCS) is the only national charity in the UK that supports and represents people affected by a sickle cell disorder to improve their overall quality of life. First set up as a registered charity in 1979, the Sickle Cell Society has been working alongside health care professionals, parents, and people living with sickle cell to raise awareness of the disorder. The Society's aim is to support those living with sickle cell and their families, empowering them to achieve their full potential.
